SUMMARY

Highly motivated and results-driven Frontend Engineer with 5 years of experience developing and optimizing web applications using React and modern JavaScript practices. Proven ability to build reusable components, improve application performance, and collaborate effectively with cross-functional teams. Expertise in creating responsive and accessible user interfaces.

EXPERIENCE

Senior Frontend Developer, Tech Solutions Inc.

January 2020 - Present

- Developed and maintained multiple React-based web applications, resulting in a 40% performance improvement through code optimization and component reusability.
- Collaborated with UX designers to implement responsive designs, ensuring accessibility and optimal user experiences across desktop and mobile platforms.
- Led the migration from a legacy codebase to a modern React/Redux architecture, improving code maintainability and scalability.
- Mentored junior developers, conducting code reviews and pair programming sessions to promote best practices and code quality.

Web Developer, Digital Innovations

June 2017 - December 2019

- Built interactive web applications using JavaScript, HTML5, and CSS3, focusing on responsive design and user-friendly interfaces.
- Implemented RESTful API integrations for various third-party services, ensuring seamless data flow and functionality.
- Reduced page load times by 60% through code optimization, lazy loading techniques, and efficient resource management.
- Participated in agile development practices, including daily stand-ups and sprint planning, contributing to efficient project delivery.

EDUCATION

Bachelor of Science in Computer Science

University of Technology, Graduated May 2017

- GPA: 3.8/4.0
- Relevant coursework: Data Structures, Algorithms, Web Development, Database Management

SKILLS

- Programming Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, Python
- Frontend: React, Redux, Angular, Vue.js, SASS/SCSS, Styled Components
- Backend: Node.js, Express, RESTful APIs, GraphQL
- Tools & Others: Git, Webpack, Jest, Mocha, AWS, Docker, CI/CD pipelines

PROJECTS

Personal Portfolio Website

- Designed and developed a responsive personal website using React and Tailwind CSS, showcasing frontend development skills.
- Implemented dark/light mode toggle and animations using Framer Motion, enhancing user experience.

E-commerce Dashboard

- Created a dashboard for monitoring sales data using React, Chart.js, and Material UI, demonstrating data visualization capabilities.
- Integrated with a Node.js backend to fetch and display real-time data, showcasing full-stack development skills.

CERTIFICATIONS

- AWS Certified Developer – Associate (2022)
- MongoDB Certified Developer (2021)
